Sub-processors

Last updated: September 28, 2026

VideoScripter Kft. engages the sub-processors below to provide the Tutorial AI service. This list is referenced by our Data Processing Agreement. To be notified before a new sub-processor is authorized, subscribe at legal@tutorial.ai.

Sub-processor	Purpose	Location
Google Cloud EMEA Limited	Cloud hosting, storage, database, text-to-speech, transactional system notifications and technical processing	Ireland (data hosted in Belgium & Netherlands)
OpenAI Ireland Limited	AI script and narration generation; recognition of click-region image excerpts	Ireland
Eleven Labs Poland sp. z o.o.	AI text-to-speech (voice generation)	Poland (processing in the Netherlands)
Stripe, Inc.	Billing and payment processing	United States
Intercom, Inc.	Customer support	United States

Model providers do not use customer data to train their models (OpenAI Services Agreement §4.2; ElevenLabs training opt-out on VideoScripter's account).
